

WEST BENGAL STATE ELECTRICITY TRANSMISSION COMPANY LIMITED

(A Govt. of West Bengal Enterprise)

Vidyut Bhawan, Bidhannagar, Kolkata - 700 091

OFFICE ORDER NO. : CS/39

DATE : 21.12.2013

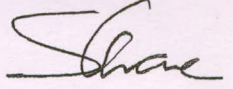

Sub : Finalization of Techno-Commercial Bids

The majority of the transmission schemes for sub-station and transmission lines are of high value tenders, which, according to the Procurement Procedure-I (Clause 4.3) need be placed either to the Board Committee for Contracts, Purchases & Procurements or Board of Directors, depending on value of tender, for approval of techno-commercial bids. Strict observance of the aforesaid clause of Procurement Procedure may result in delay in finalization of tenders and subsequently there is every possibility of time over run in execution of high value schemes.

Therefore, a proposal was placed before the Board that, to quicken and simplify the procedural aspects, respective Award Approving Authority, as per DoP, as may be applicable, upto the rank of Director/Managing Director, be authorized to finalize techno-commercial bids, on recommendation of the Tender Committee, in each case, irrespective of value of tender by suitable modification of Clause No.4.3 of the Procurement Procedure-I.

In consideration of the merit of the proposal, the Board approved to modify the Clause No.4.3 of Procurement Procedure-I under Procurement Policy and Procedures, which reads as follows:

“After examination of the Techno-commercial part of Bids and ascertaining the bids which are responsive, compliant with the provisions of bidding documents, meeting the qualifying requirements, the Tender Committee shall put up the case to the respective Award Approving Authority, as per DoP. However, for cases where Award Approving Authority is either Board Committee for Contracts, Purchases & Procurements or Board of Directors, these are to be put up to the Managing Director, for acceptance/modification/rejection of the recommendation of the Tender Committee.”
